7 March 1983

ILLEGIB

NOTE FOR: DDA

VIA: ADDA

FROM: EO/DDA

SUBJECT: Status of OP Wang Word Processors
(Source of Info: 

STAT

1. The current status of Wang word processors in OP is as follows:

- a. Policy, Analysis and Evaluations (PA&E) has an Alliance system consisting of a CPU, disk, four work stations, and four printers.
- b. Correspondence and Applicant Records Branch (CARB) has a 7525 system consisting of a CPU, disk, two work stations, and two printers.

Their remaining two work stations and two printers will be operational within 2 to 3 weeks. This delay is their choice; CARB is gradually shifting from NBI's to Wangs.

2. If they get funds, OP is slated to receive the following in FY-84:

- a. Alliance system, consisting of 20 work stations and seven printers.
- b. 7525 systems, consisting of four work stations and printers each.

211C noted.
Annexable.
